

Teaching Professions Open House

Four County Career Center's Teaching Professions program recently hosted an information night for any current 11th grade students in the four county area interested in applying for the 2012-2013 school year. This tech prep program is housed at The Defiance College and Northwest State Community College and is a senior year only program that provides a pathway for students interested in the field of education. Students take their academic courses at their associate high school, the Career Center or a post secondary institution for one-half day; seminar days are at the college; and they spend the rest of their time working side-by-side with professional educators in elementary, middle, secondary, and special needs classrooms. Students have a potential of earning college credits.

Registrations for the Teaching Professions program will be accepted through March 15. Questions can be addressed by contacting Bev Emch at Four County Career Center at 1-800-589-3334, Ext. 2288.
