

# Basic Supervision Class Graduation

Supervisors from Triple Diamond Plastics in Liberty Center recently completed the 90 hour, 30 week course in Basic Supervision offered through Four County Career Center Adult Workforce Education in Archbold. “These supervisors and their company are committed to the success of their employees and want to do their best. This training really gives them a good base in how to better manage their departments so everyone can succeed,” stated Ellie Cichocki, Coordinator of the training. Topics include management basics, communication, delegation, coaching, interviewing, problem solving and legal aspects among many others. Shown above are graduates (LEFT TO RIGHT) Tom Patterson, Tracy Griesinger, Pat Chittum, Roger Norden.

The course is designed for those who want to advance into a supervisory position or those that have that position, but have not had any training in those “people skills” that are so vital for success. “The vast majority of supervisors are promoted into that a supervisory position because they are ‘good soldiers’, technically proficient and really know the job of the line employee. They have not had the training necessary to best manage their people, though; it’s a different skill set,” Cichocki said. For more information about Basic Supervision, contact Cichocki at 419-267-2208
