

Career Exploration Day

On Friday, Four County Career Center hosted the annual Career Exploration Day for over 1,800 sophomores from the 22 member schools in Defiance, Fulton, Henry, and Williams counties. Each sophomore visited two career and technical programs and heard presentations about the programs from Career Center junior and senior students and instructors. The Career Exploration Day is an opportunity for sophomores to learn more about the programs to make decisions about attending the Career Center during their junior and seniors years of high school. To be eligible to attend, sophomores need to register through their member school guidance counselors. Open House for parents and students will be held Monday, January 14, 2013 from 5:00 - 7:30 p.m. at the Career Center. Registrations are currently being accepted for the 2013-2014 school year.
