

Malinta Service Project

Four County Career Center's Landscape Systems Management students from Patrick Henry recently participated in a service learning project at Malinta Elementary School. The students planted and mulched "knockout" roses, Boxwood shrubs, and ornamental grasses. The plants were provided by the Patrick Henry High School "Eco Club." Shown during the mulching process are (LEFT TO RIGHT) Joey Hummon; Brad Breece; Galen Powers; Alex Suber; Bailey McCance; and instructor, Gabe Oberlin. Mr. Oberlin, Horticulture instructor, made the arrangements and supervised the project.
