

Ag/Diesel Hosts Guest Speaker

As part of the Four County Career Center's Agriculture/Diesel Mechanics career and technical education training, students recently had the opportunity to host guest speaker Tom Krill from Liechty Kenn-Feld Group in Archbold. He presented precision farming careers available and demonstrated the new farming equipment. Four County Career Center is very appreciative of the commitment of local industries to the training and education of their students. Shown above with Mr. Krill (RIGHT) are (LEFT TO RIGHT) Darryn Fredrick (Liberty Center); and Kyle Spurgeon (Patrick Henry). Jason Elston, Agriculture/Diesel Mechanics instructor, made the arrangements.
