

Discovery Days

Four County Career Center will be hosting Discovery Days for sophomores who were unable to attend the Career Exploration Day or just need additional information about the exciting programs offered. The Career Center offers thirty career and technical programs with expert instructors. Students who attend the Career Center get a jumpstart on their future and attend school with other students with their same interests.

The Discover Days event will be held on February 25 and February 27. Please contact your associate school guidance counselor or call the Four County Career Center Student Services office at 800-589-3334, Ext. 2701 to set up an appointment.
