

# Summer Work Experience

To keep our staff up-to-date with state-of-the-art technology, Four County Career Center staff members are eligible to participate in a Work Experience program sponsored by the Career Center. Staff have the opportunity to participate with a local employer in an internship experience in the area of their expertise. Following their internship time, the staff include the up-to-date training to give the best possible care to students attending the Career Center. The local internship site is not responsible for wages to staff during their training. Through these types of partnerships with local businesses, Four County Career Center exists to serve the people of northwest Ohio.
