

Police Cruiser Donated

Brian Patrick, MBA, CCE, CCM-NCSC and Superintendent at Northwest Ohio Juvenile Detention, Training and Rehabilitation District presented keys to a 1994 Police Cruiser to Kevin Thomas, instructor in Four County Career Center's Law Enforcement & Security Tactics program at the Career Center. The donated cruiser will be utilized in valuable training for the juniors and seniors in the program.

The Career Center is appreciative to the Northwest Ohio Juvenile Detention, Training and Rehabilitation District for their continued support to the education of students and the community. Shown above while delivering the cruiser to the Career Center are (LEFT TO RIGHT) Patrick; Thomas and Law Enforcement & Security Tactics students Cody Robeson (Napoleon); Kevin Thomas (Fairview); and Noah Blankenship (Archbold).

Four County Career Center and Northwest State Community College recently partnered to offer a triage simulation for registered nursing and Paramedic students. This was the third triage simulation that took place in the NSCC plastics lab. Students responded to the simulated explosion, complete with smoke and sound effects, where they assessed the condition of twelve victims.

Career Center Fire & Rescue senior students and mannequins were victims, and there was a range of injuries including some who were deceased. After the simulation, everyone gathered to debrief. Instructors provided feedback on the students' performance, bringing the learning experience full circle. The simulation was designed to provide students with realistic training, which will help prepare them for careers in various health care and public service fields.

Also available for the students to view was the new St. Vincent Mercy Mobile Stroke Unit. Kyle Brodbeck, Paramedic at St. Vincent's, explained to the students how the unit worked in saving the quality of life for stroke victims in the Lucas, Wood, Fulton and Henry county areas. There are only four Mobile Stroke Unit's in the United States today.

Shown above during the simulation are (LEFT TO RIGHT) Aimee Wueller, Nursing student (Liberty Center); Kim Cottrell, Nursing student (Antwerp); victim Rachael Thompson, Fire & Rescue student (Hicksville); and Kodie Carlisle, Paramedic student and 2009 Career Center graduate (Bryan).
