

Students Earn UNOH Scholarships

Four County Career Center is proud to announce that three students from the Network Administration and Cybersecurity program have been awarded scholarships to attend the University of Northwestern Ohio. The scholarships were awarded as the result of the Information technology Scholarship Test which took place at the UNOH Open House event this past Fall. The students placed third through fifth - Andrew Canada (Pettisville) took third place, a scholarship worth \$4,000; Morgan Street (Bryan) finished fourth, a scholarship worth \$3,000; and Collin Todd (Hilltop) placed fifth, a scholarship worth \$2,000. This is an awesome accomplishment and congratulations to the students and instructor, Tim Ricketts.
