

FFA 5th at State

Four County Career Center FFA students Ethan Gerken (Tinora) and Taylor Wheeler (Hilltop) recently took 5th in the State FFA Agricultural and Industrial Diagnostics Contest. Students from all of Ohio competed in a written examination and practical skill event to determine their expertise of tractors. A panel of judges graded each school in the areas of workmanship as a team, safety practices, problem-solving techniques and identification, and repair of malfunctions to determine a state champion.
